Identifying, Measuring, and Managing of Climate Risk in Banks

OVERVIEW:

The impacts of climate change are increasingly being felt across the globe, and the financial sector, including banks, is not immune to its consequences. Recognizing the urgent need to address climate-related risks, this seminar offers a comprehensive exploration of the strategies, tools, and frameworks essential for identifying, measuring, and managing climate risk within the banking industry. The seminar is designed to empower banking professionals with the knowledge and skills necessary to tackle the complex challenges posed by climate change. With a focus on risk identification, measurement, and management, this event offers a unique opportunity to learn from industry experts, engage in interactive discussions, and explore real-world case studies.
