Validation of Risk Models

OVERVIEW:

Risk models are an integral part of risk management. However, risk models have also played a major (notorious) role in the financial crisis. Regulators awareness has risen with respect to risk models, their accuracy and validation. This workshop sets the scene by defining validation and detailing the requirements on the processes, methods and infrastructure of model validation.

AGENDA OUTLINE:

1 Day Seminar:

Validation of risk models

WHO SHOULD ATTEND:

We believe that this seminar is most useful for participants from:

- Supervisors
- Risk management
- Risk controlling
